Re: San Jacinto River Waste Pits Superfund Site
TCRA Monthly Report No. 008 for August 15 – September 17, 2012
U.S. EPA Region 6, CERCLA Docket No. 06-12-10

Project Number: 090557-01

Dear Mr. Leos:

Attached please find TCRA Monthly Report No. 008 August 15 – September 17, 2012.

This report was prepared on behalf of the International Paper Company and McGinnes Industrial Maintenance Corporation for the San Jacinto River Waste Pits Superfund Site in Channelview, Texas. Should you have any questions, please contact me at (228) 818-9626 or email me at dkeith@anchorqea.com.

Sincerely,

John P. Laplante for David C. Keith
Project Coordinator

cc: Barbara Nann, USEPA

David Moreira, MIMC

Jennifer Sampson, Integral

TCRA Monthly Report No. 008
Submitted September 17, 2012
San Jacinto River Waste Pits Superfund Site
USEPA Region 6, CERCLA Docket No. 06-12-10
Channelview, Texas

This monthly report is submitted pursuant to the Administrative Settlement Agreement and Order on Consent for Removal Action: CERCLA Docket No. 06-12-10, Channelview, Texas, which became effective on May 17, 2010 (AOC). The AOC establishes the requirements for a Time Critical Removal Action (TCRA). The Respondents are International Paper Company (IP) and McGinnes Industrial Maintenance Corporation (MIMC). This monthly report has been initiated to replace the weekly report that was formerly submitted to the United States Environmental Protection Agency (USEPA) for the same project. Approval to change from weekly to monthly reporting was requested by the Respondents from USEPA in accordance with Section VIII, Paragraph 49.a. of the AOC. USEPA granted approval of this requested change on January 18, 2012.

A. Summary of Work Performed – Dates: August 15, 2012-September 17, 2012

The Respondents and Anchor QEA completed work on the following tasks:

- Submitted TCRA Monthly Progress Report No. 007 on August 15, 2012.
- Submitted Post-TCRA Quarterly Inspection Report (July 2012 Inspection) on August 21, 2012.
- Submitted TCRA Maintenance Completion Report on August 27, 2012.
- Performed fence inspection on September 6, 2012. Site was secure, with no evidence of trespassing and no deficiencies noted.

B. Summary of Agency Communications

The written communications between the Respondents and USEPA, including and subsequent to the issuance of the Removal Action Work Plan (RAWP), are summarized in the attached Table 1.

C. Summary of Sampling Results

None for this report.

D. Problems, Delays, and Solutions

Removal Action Completion Report

Respondents received a letter from USEPA dated July 24, 2012 (July 24 Letter), stating that USEPA had issued a letter dated May 22, 2012 (May 22 Letter). Prior to receiving the July 24 Letter, Respondents had not received the May 22 Letter in accordance with the requirements of the AOC. The subsequently emailed version of the May 22 Letter refers to USEPA's decision to disapprove the draft final Removal Action Completion Report (RACR) and issue the RACR in final form with revisions that USEPA had requested be made in the RACR, but that Respondents had declined to make for reasons detailed in correspondence with USEPA dated March 8, 2012.

TCRA Monthly Report No. 008
Submitted September 17, 2012
San Jacinto River Waste Pits Superfund Site
USEPA Region 6, CERCLA Docket No. 06-12-10
Channelview, Texas

On August 15, 2012, the Respondents received a copy of the final RACR in the form issued by USEPA. Pursuant to an email from USEPA counsel dated August 10, 2012, USEPA has extended the time for Respondents to exercise any rights that they have under the AOC to dispute USEPA's actions as reflected in the May 22 Letter. The extension is for a period of 60 days from the date on which Respondents and USEPA meet to discuss this issue and the stipulated penalties issue, in general. The meeting is currently scheduled for October 9, 2012. Subject to their review of the final RACR as it was issued by USEPA, and Respondents' upcoming meeting and discussions with USEPA, Respondents object to USEPA's actions with respect to the RACR.

Notices of Violation

Respondents continue to dispute USEPA's allegations contained in USEPA's Notices of Violations dated January 14, January 21, and January 24, and on April 4, 2011, they submitted an additional notice of dispute to USEPA with respect to USEPA's Notice of Violation dated March 3, 2011, and certain statements contained in two other letters from USEPA dated March 3, 2011. They also dispute USEPA's rejection by letter dated February 16, 2011, of their force majeure claim. They submitted a Notice of Dispute to USEPA on March 18, 2011, and made a supplemental submittal to USEPA on September 9, 2011, in response to that letter. On August 11, 2011, Respondents received a letter from USEPA dated August 5, 2011, alleging non-compliance with deadlines contained in the AOC. Respondents submitted a notice of dispute to USEPA on September 9, 2011, in response to the August 5, 2011 letter, pursuant to which they dispute any claim by USEPA that they are subject to stipulated penalties under the AOC or associated with the TCRA, as to which construction was substantially completed as of July 14, 2011, several weeks ahead of the original schedule for its substantial completion.

Respondents are in receipt of an additional letter from USEPA, the July 24 Letter that contains a list of potential violations, based on previously issued NOVs. In addition, the July 24 Letter identifies a violation that is described as having been "identified in USEPA's Letter to Respondents dated May 22, 2012." Prior to receiving the July 24 Letter, Respondents were not aware of the May 22 Letter. USEPA has agreed to extend the time for Respondents to invoke dispute resolution with respect to the matters addressed in the May 22 Letter for a period of 60 days from the date of a meeting between representatives of USEPA and Respondents. That meeting was originally scheduled to take place on August 23, 2012 but has been delayed until October 9, 2012.

Respondents' TCRA Monthly Report No. 007 referred to another alleged construction-related violation associated with a missed "start" date in the construction schedule. Upon further review of the July 24 Letter it appears this statement in TCRA Monthly Report No. 007 was in error.

Channelview, Texas

Access Issues

USEPA had agreed to extend the deadline it had set for Respondents to obtain access from San Jacinto River Fleet (SJRF), as the new owner of the property once owned by Big Star Barge & Boat Company, Inc. Subsequently, in an email dated October 6, 2011, USEPA's counsel asked Respondents to continue to work with SJRF to obtain access to the SJRF property but removed the deadline that had previously been set for Respondents to obtain such access. In an email dated October 7, 2011, SJRF's Vice-President, Brian Darnell, stated that Respondents could access portions of the SJRF's property, and in a later email dated October 14, 2011, identified conditions that would be required for access to the other portions of the SJRF property. Respondents reviewed those conditions and responded to Mr. Darnell's October 14, 2011 email, by email, dated October 31, 2011, a copy of which was sent to USEPA. On December 27, 2011, Respondents received a response from Mr. Darnell to their October 31, 2011 email, and given that the Respondents do not currently anticipate a need for access to the SJRF's property, have deferred a response to the issues raised in the email. Respondents will continue to pursue efforts to reach an access agreement with SJRF, should there be a need for access to the SJRF's property. USEPA had raised questions regarding a submission made by MIMC's counsel on September 30, 2011, regarding access issues with respect to the western boundary of the impoundments. Counsel for both of the Respondents have made submissions to USEPA in response.

SJRF Operations

Respondents have notified USEPA of, and addressed in their monthly reports under the Unilateral Administrative Order for the Site, their concerns regarding SJRF's operations in the vicinity of the Site. These concerns are applicable to the TCRA as well due to potential adverse impact on the TCRA Cap. Pursuant to an email dated February 9, 2012, USEPA's counsel forwarded to Respondents' counsel a copy of a draft sampling and analysis plan prepared for SJRF (SJRF Draft SAP). The SJRF Draft SAP purports to address "existing environmental impact that could be disturbed by SJRF's commercial operations" in the vicinity of the Site. Respondents submitted correspondence dated March 8, 2012, to USEPA on the Respondents' concerns regarding potential impacts of SJRF's operations on the TCRA armored cap. The March 8, 2012 correspondence included Respondents' comments on the SJRF Draft SAP. On May 1, 2012, the Respondents' counsel were informed by USEPA's counsel that the SJRF Draft SAP remained under review by USEPA. On May 16, 2012, USEPA's counsel provided Respondents' counsel with comments from the U.S. Department of Commerce National Oceanic and Atmospheric Administration (NOAA), the Texas Commission on Environmental Quality (TCEQ), and the Harris County Pollution Control Services Department regarding the SJRF Draft SAP. On June 12, 2012, USEPA forwarded Respondents' Project Coordinator a copy of USEPA's June 12, 2012 correspondence with the SJRF pursuant to which it transmitted to SJRF

TCRA Monthly Report No. 008
Submitted September 17, 2012
San Jacinto River Waste Pits Superfund Site
USEPA Region 6, CERCLA Docket No. 06-12-10
Channelview, Texas

its comments on the SJRF Draft SAP. Respondents intend to continue to work with USEPA on this issue.

TCRA Cap Maintenance

During a scheduled inspection of the TCRA Cap on July 20, 2012, visible geotextile was noted in discrete locations near the top of the western berm. The Respondents and Anchor QEA notified USEPA verbally regarding these observations on July 20, 2012. Anchor QEA performed additional inspections on July 21 and 22, 2012, and collected survey data of these areas on July 23, 2012. Pursuant to the OMM Plan, Respondents submitted written notification and an inspection report to USEPA to document these observations.

Also in accordance with the OMM Plan, the Respondents submitted a TCRA Repair Plan to USEPA for review and approval on July 27, 2012. USEPA approved the TCRA Repair Plan on July 31, 2012. The Respondents' contractor, USA Environment, LP, mobilized to the TCRA Site within one business day of plan approval on August 1, 2012, in accordance with the OMM Plan. Cap maintenance activities were performed August 1 and 2, 2012, and were completed on August 3, 2012.

In connection with approval of the TCRA Repair Plan, USEPA has requested information and raised questions with respect to certain aspects of the TCRA Cap's design, construction, and current condition. Respondents intend to address such matters consistent with their assessment of the TCRA design, construction, and current condition.

E. Projected Work for the Next 2 Months – Dates: September 17, 2012-November 15, 2012

The Respondents and Anchor QEA expect to complete the following tasks in the next 2 months:

- Continue to work with USEPA to address impacts of the SJRF's operations on the Site.
- Meet with USEPA to discuss the stipulated penalties and RACR issues raised in the July 24 Letter.
- Initiate and complete an independent evaluation of the engineering design of the TCRA cap, as requested by USEPA.
- Initiate and complete the next Post-TCRA Quarterly Inspection.

F. Schedule

Attached is the approved project construction schedule, which is being included as directed by USEPA in a letter from Valmichael Leos to David Keith of Anchor QEA dated February 10, 2011. The approved construction schedule is out of date, as it references armor cap materials whose designations have now changed (as explained in the approved revised RAWP [Revised RAWP]),

TCRA Monthly Report No. 008
Submitted September 17, 2012
San Jacinto River Waste Pits Superfund Site
USEPA Region 6, CERCLA Docket No. 06-12-10
Channelview, Texas

and includes "start" and "finish" dates for these materials that are no longer applicable since the sequencing of placement of the construction materials has also changed, as explained in the approved RAWP. Note that armor cap material designations referred to above are based on the approved Revised RAWP.

A proposed updated project construction schedule, based on Respondents having obtained access to the Texas Department of Transportation Right-of-Way (TxDOT ROW), and secured a lease for a laydown area and dock facility, was transmitted to USEPA on February 14, 2011. Respondents prepared the updated project construction schedule pursuant to USEPA's direction, and it further revised and updated the schedule presented and submitted to USEPA at a January 31, 2011, meeting. On March 3, 2011, USEPA provided a letter indicating the proposed schedule was not approved and invited Respondents to request a meeting with USEPA if desired. A meeting with USEPA regarding the schedule took place on March 24, 2011, and based on that meeting, the Respondents did not submit a revised schedule. USEPA suggested during the March 24, 2011 meeting that the schedule be discussed in June or July, 2011. Respondents note that the USEPA's August 5, 2011 letter (received by them on August 11, 2011) identifies alleged failure to meet construction deadlines contained in the outdated construction schedule. As noted above, Respondents on September 9, 2011 submitted a notice of dispute to USEPA with respect to the August 5, 2011 letter and any alleged violations of or non-compliance with the AOC with respect to such deadlines.

Table 2 presents a summary list of the major cap construction elements and their dates of completion. Please note that the tasks set out in Table 2 do not coincide with the tasks listed in the approved project construction schedule since, as discussed above, the approved schedule is out of date. In addition, the material designations referred to below are based on the approved Revised RAWP, which contains material designations that differ from those referred to in the out-of-date approved project construction schedule.

Table 2 – Summary of Cap Construction Elements

Task	Date Completed
Water-side geotextile placement	May 16, 2011
Water-side placement of Cap A material	May 19, 2011
Water-side placement of Cap C material	May 13, 2011
Water-side placement of Cap D material	May 16, 2011
Clearing and grubbing of Western Cell	April 8, 2011
Stabilization of Western Cell	May 17, 2011
Land-side granular fill placement in Western Cell	May 24, 2011
Land-side LLDPE placement in Western Cell	June 1, 2011
Land-side placement of Cap A material ¹	May 19, 2011

TCRA Monthly Report No. 008
Submitted September 17, 2012
San Jacinto River Waste Pits Superfund Site
USEPA Region 6, CERCLA Docket No. 06-12-10
Channelview, Texas

Task	Date Completed
Land-side placement of Cap B/C material	June 24, 2011
Land-side placement of Cap D material	July 12, 2011

1. On June 24, 2011 the more protective Cap B/C rock was placed in a small portion of the Western Cell in which Cap A rock was originally going to be placed to complete the work in this area.
